

JÉRÉMY RIPERT

ROBOTICS ENGINEER

+33 6 34 03 19 60

ripert.jeremy05@gmail.com

Toulouse

Passionate about computers, robotics, and math, I enjoy implementing projects. I am serious, rigorous, and diligent so I ensure the success and accuracy of solutions at the same time that I ensure a safe and friendly workspace.

PROFESSIONAL EXPERIENCES

Multiskilled crew member at McDonald's

summer 2024

I loved preparing orders at the drive-thru because I had contact with customers and I also had to communicate with my team. I learned to manage conflicts, work accurately and efficiently under pressure and as part of a team.

PROJECTS

Volunteer at Handi Sud Basket (HSB) club

2017-2025

It's a basketball club for people with physical disabilities in Marseille. I loved helping people with disabilities who share my passion for basketball. I learned to organize outings, both for trips within France and even abroad.

Basketball referee

2023-

I decided to become a basketball referee to pass my passion for basketball to younger generations so they can play without problems and have fun. I learned how to be independent and to trust the second referee. I also learned how to be impartial and authoritative.

SCHOOL CAREER

Master in computer science and telecommunications

September 2025

INP-ENSEEIHT

today

Classe préparatoire aux grandes écoles

September 2023

Centre international de Valbonne
